

VIRDI

VIR-METALCASE-AC5000

- Environmental protection
- To be used with the AC2100, AC2100H and AC5000 units in harsh environments and exterior applications
- Does NOT add to the Ingress Protection rating of the Terminal
- Protects LCD from Sunlight
- Provides limited protection against abuse of Terminals

The **ACC210** is a 316 Stainless Steel Vertical Robust Enclosure for the AC2100, AC2100H and AC5000 Biometric terminals. It provides Environmental Protection in harsh environments and in instances where Biometric Terminals are used externally. The smoked polycarbonate screen cover provides protection against the harsh African sun while ample space is provided for cabling connections behind the Terminal

Features:

- 316 Brushed Stainless Steel
- 3mm Smoked Polycarbonate UV Screen Cover
- Surface Mount
- Cable Entry and Exit
- Cable Access for cable connections
- Internal Mounts for AC2100, AC2100H and AC5000
- (H) 215 x (W) 103 x (D) 87 mm
